

Principal Investigator (PI) - Declaration of consent

The principal investigator of the research study must complete and sign this declaration for the manuscript and all supplementary data before they can be accepted into the peer review process.

- I confirm that I have read and verified the accuracy of all submitted files and data.
- I confirm that all co-authors and contributors of this study have read and approved the submission of the manuscript and supplementary data set and agree with their roles.
- I confirm that the data submission complies with my affiliated institution's data protection policy.
- By signing below, I consent to the submission of the manuscript and supplementary data set to the peer review process.
- I understand that if the manuscript is accepted, the final reviewed and edited version will be published with Student Medical Journal, an open-access, peer-reviewed platform.
